MIDDLE TENNESSEE ELECTRIC ) Lead Call Sign: WQNI899<sup>1</sup>  
MEMBERSHIP CORPORATION )  
 )  
Request for Waiver of Section 90.179 of the )  
Commission's Rules )

**ORDER**

**Adopted: April 24, 2019**

**Released: April 25, 2019**

By the Chief, Policy and Licensing Division, Public Safety and Homeland Security Bureau:

**I. INTRODUCTION**

1. The Middle Tennessee Electric Membership Corporation (MTEMC) requests a waiver of Section 90.179 of the Commission's rules<sup>2</sup> to share use of the Tennessee Advanced Communications Network (TACN), a statewide, public safety 700/800 MHz radio system licensed to the State of Tennessee.<sup>3</sup> Based on the record, and for the reasons stated below, we (1) grant the request for a waiver of Section 90.179 with regard to MTEMC's proposed use of TACN's 800 MHz facilities, and (2) find that no waiver is necessary for MTEMC's proposed use of TACN's 700 MHz facilities because MTEMC has committed to abide by conditions that satisfy the eligibility criteria in Section 337 of the Communications Act of 1934, as amended, and Section 90.523(b) of the Commission rules.<sup>4</sup>

**II. BACKGROUND**

2. MTEMC is a member-owned, non-profit electric power transmission cooperative that "distributes electricity to about 212,000 residential and business members in a four-county area directly south of metropolitan Nashville."<sup>5</sup> TACN, which is administered by the Tennessee Department of Safety and Homeland Security (Tennessee or DHS), is a Project 25 radio network serving 30,000 users

---

<sup>1</sup> See Appendix A for a list of affected call signs and sites. The record in this proceeding is available in the Commission's Electronic Comment Filing System. See Filing Detail (Oct. 10, 2017) <https://www.fcc.gov/ecfs/filing/1009843529125>, Filing Detail (June 1, 2018) <https://www.fcc.gov/ecfs/filing/1060181368116>, Filing Detail (Aug. 24, 2018) <https://www.fcc.gov/ecfs/filing/10824660606486>.

<sup>2</sup> 47 CFR § 90.179 (shared use of radio stations).

<sup>3</sup> Letter from Alan S. Tilles, Counsel to MTEMC, to Michael J. Wilhelm, Chief, Policy and Licensing Division, FCC Public Safety & Homeland Security Bureau (PSHSB) (Oct. 9, 2017) (Waiver Request). MTEMC has supplemented its waiver request with additional filings. See Letter from Arnold Hooper, Director of Wireless Communications for the Tennessee Department of Safety and Homeland Security, to Michael J. Wilhelm, Chief, Policy and Licensing Division, FCC PSHSB (Sept. 11, 2017) (DHS Letter); Letter from Jesse Griggs, Region 39 Chair 700/800 Planning Committee (RPC) (Tennessee), to Michael J. Wilhelm, Chief, Policy and Licensing Division, FCC PSHSB (Sept. 11, 2017) (attached to Waiver Request) (RPC 39 Letter); Amendment 01 of Contract 56194 (Jan. 4, 2018) (Amendment).

<sup>4</sup> 47 CFR § 90.523(b).

<sup>5</sup> See Waiver Request at 1.

statewide and comprised of 105 station sites using either VHF High Band frequencies, 700 MHz spectrum, 800 MHz spectrum, or a combination of 700/800 MHz spectrum.<sup>6</sup>

3. Section 90.179(a) of the Commission’s rules, which governs sharing of Part 90 frequencies, provides that “persons may share a radio station only on frequencies for which they would be eligible for a separate authorization.”<sup>7</sup> MTEMC acknowledges that as an electric utility, it is not eligible for a separate authorization to use Tennessee’s 800 MHz licensed facilities in the absence of a waiver.<sup>8</sup> Accordingly, MTEMC requests a waiver of Section 90.179(a) to allow it to use the TACN system.<sup>9</sup>

4. MTEMC asserts that its shared use of the TACN system will facilitate interoperability during incident response involving electrical networks and will further cooperation with local public safety providers.<sup>10</sup> To that end, MTEMC negotiated an agreement with DSHS that would allow MTEMC, subject to regulatory approval, to access the TACN system.<sup>11</sup>

5. With a term of September 25, 2017 to December 31, 2023, the Contract between MTEMC and DSHS is subject, *inter alia*, to the following terms and conditions intended to protect and preserve the integrity of the public safety network:<sup>12</sup>

- All radio communications on the TACN will comply with Commission rules, “specifically applicable provisions within Part 90.”<sup>13</sup>
- MTEMC will purchase all equipment necessary to provide TACN communications within its service area in conjunction with Tennessee’s equipment that is already in place.<sup>14</sup>
- “No user may adversely affect the total daily capacity or availability of the TACN except in emergency situations and with notification to the State’s Director of Wireless Communications.”<sup>15</sup>

6. MTEMC also indicates that it will contribute additional capacity and coverage to the TACN system by sharing its existing licenses for 800 MHz spectrum.<sup>16</sup> In addition to increased capacity without reliance on unlicensed spectrum, and better coverage for first responders, MTEMC asserts that a combined system will result in greater incident coordination “between entities increasingly dependent upon one another;” and “cost savings [to . . .] the citizens of Tennessee.”<sup>17</sup> Further, MTEMC suggests that allowing MTEMC’s use of both the 700 MHz and 800 MHz spectrum of the TACN system would be

<sup>6</sup> See *id.* at 2; Contract between DSHS and MTEMC at 2 (Sept. 14, 2017) (attached to Waiver Request) (Contract). We observe that both the Waiver Request and the Contract describe the TACN as holding and using VHF licenses. In this Order, we address only the 700 MHz and 800 MHz licenses listed in Appendix A. Nothing in this Order should be construed as authorizing MTEMC to use any spectrum licensed to TACN other than the spectrum associated with the licenses listed in Appendix A. See also *infra* paragraph 15.

<sup>16</sup> Waiver Request at 3.

<sup>17</sup> *Id.* at 3.

consistent with previous Commission decisions.<sup>18</sup>

7. On February 5, 2018, MTEMC submitted an Amendment to the Contract<sup>19</sup> limiting MTEMC to the following uses of 700 MHz narrowband frequencies in the TACN system:

- Communications necessary and essential to respond to or restore power outages and system restoration;
- Emergency notifications necessary and essential to the safety of employees and the public and to protection of property, such as line energization, imminent threats to persons or infrastructure and other hazardous conditions;
- Communications relating to the energization, de-energization, or reconfiguration of electric transmission lines, distribution lines, and substations, including the coordination of these activities; and other uses directly related to the protection of property or safety of [MTEMC's] employees or the general public.<sup>20</sup>

8. On February 26, 2019, MTEMTC submitted another Amendment to the Contract stating that MTEMC "may not affect the total daily capacity or availability of the TACN."<sup>21</sup>

### III. DISCUSSION

9. As explained below, we grant the request for a waiver of Section 90.179 with respect to the use of TACN's 800 MHz spectrum. For the 700 MHz public safety frequencies, the parties have demonstrated that the contemplated use of the 700 MHz spectrum, as limited by the restrictions contained in the Contract as amended, complies with the terms of Section 337 of the Communications Act of 1934, as amended, (the Act) and Section 90.523(b) of the Commission's rules.<sup>22</sup> Accordingly, we address the use of 800 MHz spectrum and 700 MHz spectrum separately as follows.

#### A. 800 MHz Frequencies

10. To obtain a waiver of the Commission's Rules, a petitioner must demonstrate either that (i) the underlying purpose of the rule(s) would not be served or would be frustrated by application to the present case, and that a grant of the waiver would be in the public interest;<sup>23</sup> or (ii) in view of unique or unusual factual circumstances of the instant case, application of the rule(s) would be inequitable, unduly burdensome, or contrary to the public interest, or the applicant has no reasonable alternative.<sup>24</sup> We find that the purpose of Section 90.179(a) would not be served or would be frustrated if we were to apply that rule to this case.

---

<sup>18</sup> See Waiver Request at 3-4, citing *State of Ohio and FirstEnergy Corp.*, Order, 31 FCC Rcd 8758 (PSHSB 2016) (*Ohio Order*); *State of Michigan, et al.*, Order, 27 FCC Rcd 214 (PSHSB 2012) (*Michigan Order*); *State of Ohio and Ohio Rural Electric Cooperatives, Inc.*, Order, 24 FCC Rcd 2289 (PSHSB 2009) (*Ohio REC Order*).

<sup>19</sup> See Email from Alan Tilles, counsel to MTEMC, to Michael Wilhelm, Chief, Policy and Licensing Division, FCC PSHSB (Feb. 5, 2018); Amendment at 2.

<sup>20</sup> *Id.*

<sup>21</sup> See Filing Detail (Feb. 27, 2019) <https://www.fcc.gov/ecfs/filing/10226377227286> (the amendment substituted the provision "The Procuring Party may not adversely affect the total daily capacity or availability of the TACN" for the previous provision "No user may adversely affect the total daily capacity or availability of the TACN except in emergency situations and with notification to the State's Director of Wireless Communications." Cf. Filing Detail (October 10, 2017) <https://www.fcc.gov/ecfs/filing/1009843529125>; Contract at 3.

<sup>22</sup> 47 CFR § 90.523(b).

<sup>23</sup> 47 CFR § 1.925(b)(3)(i).

<sup>24</sup> 47 CFR § 1.925(b)(3)(ii).

11. The purpose of Section 90.179(a), *inter alia*, is to ensure that adequate spectrum is available for each service category (i.e., Public Safety and Industrial/Business), and to avoid interference to communications from incompatible services.<sup>25</sup>

12. We find that MTEMC has shown that granting a waiver of Section 90.179 to permit shared use of the TACN 800 MHz system would be consistent with precedent.<sup>26</sup> When granting such sharing arrangements, the Commission considers whether the agreement would result in a net loss of spectrum designated for public safety use.<sup>27</sup> MTEMC has shown there is adequate spectrum to accommodate its access to the TACN system, that it would not compromise capacity and that grant of the requested waiver would “allow faster and more efficient delivery of life-saving services.”<sup>28</sup> Indeed, MTEMC has shown that shared access to the TACN system would improve the ability of Tennessee and MTEMC to interoperate and coordinate in times of emergency.<sup>29</sup> In addition, we find that the Contract as amended adequately ensures that public safety users will have priority over the TACN system when they need that capacity.<sup>30</sup> We are also persuaded by the Region 39 Regional Planning Committee’s support of the waiver request and find it constructive that Tennessee, a party to the Contract, confirmed its support of MTEMC’s request.<sup>31</sup> Thus, because allowing MTEMC to share the TACN system would not frustrate the purpose of Section 90.179 and would serve the public interest, we grant the requested waiver.

#### B. 700 MHz Frequencies

13. Based on the record before us, we find that Tennessee may share its 700 MHz public safety facilities with MTEMC provided that MTEMC operates on the TACN system’s 700 MHz channels pursuant to the limitations in the Contract as amended. The Contract provides that MTEMC will conduct its electrical distribution communications on the TACN system to ensure that it responds to incidents involving electricity distribution in ways that protect the health of its workers and the general public and the safety of property. MTEMC and Tennessee have also implemented safeguards in the Contract to ensure that MTEMC’s communications are limited to those permitted by the Contract and that Tennessee will retain control of the TACN facilities, including those used by MTEMC.<sup>32</sup> The Contract also provides that MTEMC’s use will not affect the total daily capacity or availability of the TACN.<sup>33</sup>

14. We find the proposed operation on 700 MHz frequencies by MTEMC, subject to the limitations set forth in the Contract, to be consistent with Section 337(f)(1)(B) of the Act and Section 90.253 of the Commission’s rules.<sup>34</sup> Proposed operation is also consistent with our decision in *State of*

<sup>25</sup> See *Michigan Order*, 27 FCC Rcd at 218, para. 10, citing *Douglas Electric Cooperative*, Order, 21 FCC Rcd 11298, para. 7 (PSHSB 2006).

<sup>26</sup> See *Ohio Order*, 31 FCC Rcd 8758.

<sup>27</sup> See generally, *State of Illinois*, Order, 23 FCC Rcd 437 (PSHSB 2008).

<sup>28</sup> Waiver Request at 2.

<sup>29</sup> See Waiver Request at 2 (stating that “MTEMC is very active in sending resources across the state at any given time to assist other utilities during times of natural disasters”).

<sup>30</sup> See Contract at 3, para. A(8)(c)-(d) (stating that “the priority of participation in the TACN shall be highest for public safety . . . [and] the public safety standard for airtime availability [ ] shall be adhered to”).

<sup>31</sup> See RPC 39 Letter, *supra* n.3; DSHS Letter, *supra* n.3.

<sup>32</sup> Tennessee “fully supports the MTEMC request to become part of the network on both the 700 MHz and 800 MHz portions of the network.” DSHS Letter at 1.

<sup>33</sup> See *supra* n.21.

<sup>34</sup> Section 90.523(b) provides as follows:

A nongovernmental organization (NGO) that provides services, the sole or principal purpose of which is to protect the safety of life, health, or property, is eligible to hold an

*Ohio and First Energy Corp.* in which, based on similar contractual undertakings of First Energy Corp., we approved shared use of 700 MHz frequencies licensed to the State of Ohio.<sup>35</sup> We conclude, therefore, that MTEMC is eligible to use the TACN 700 MHz channels on a secondary, preemptible basis and that MTEMC's request for waiver regarding the TACN 700 MHz channels is moot.

### C. Conditions

15. This waiver is conditioned on MTEMC confining its communications on the TACN system to those related to "public safety services" as described herein. The Contract as amended states that Tennessee is not bound until the Contract is approved by state officials as consistent with Tennessee law and is signed by both parties.<sup>36</sup> Thus, we further condition this waiver on the parties gaining the referenced approvals and executing the Contract. As a condition of this waiver, Tennessee shall obtain prior Commission approval of any modification or addition to the facilities listed in Appendix A. If Tennessee seeks to share the TACN facilities with any other non-governmental entity, it shall first receive approval from the Public Safety and Homeland Security Bureau. This waiver is limited to the specific application before us and does not authorize Tennessee to share the TACN facilities with any other user.

16. We further condition this waiver on Tennessee obtaining prior Commission approval for any changes proposed to the list of TACN system licenses and frequencies subject to the Contract as amended, before such changes will be deemed covered by this waiver. The instant waiver is subject to modification or termination dependent on future Commission action defining permissible non-governmental use of 700 MHz public safety spectrum under Section 337 of the Act, including, but not limited to whatever action may be taken in the pending rulemaking proceeding examining non-governmental use of 700 MHz public safety facilities.<sup>37</sup>

(Continued from previous page) ——————

authorization for a system operating in the 769-775 MHz and 799-805 MHz frequency bands for transmission or reception of communications essential to providing such services if (and only for so long as) the NGO applicant/licensee:

- (1) Has the ongoing support (to operate such system) of a state or local governmental entity whose mission is the oversight of or provision of services, the sole or principal purpose of which is to protect the safety of life, health, or property;
- (2) Operates such authorized system solely for transmission of communication essential to providing services the sole or principal purpose of which is to protect the safety of life, health, or property; and
- (3) All applications submitted by NGOs must be accompanied by a new, written certification of support (for the NGO applicant to operate the applied-for system) by the state or local governmental entity referenced in paragraph (b)(1) of this section.

**IV. ORDERING CLAUSES**

17. Accordingly, IT IS ORDERED, that pursuant to Sections 4(i), 303(r) and 337 of the Communications Act of 1934, as amended, 47 U.S.C. §§ 154(i), 303(r) and 337, and Sections 1.925, and 90.179(a) of the Commission's rules, 47 CFR §§ 1.925 and 90.179(a), the Waiver Request filed by Middle Tennessee Electric Membership Corporation, as supplemented, as to facilities in the 800 MHz band listed in Appendix A hereto, is GRANTED as conditioned *supra*; and, as to facilities in the public safety 700 MHz band listed in Appendix A hereto, IS DISMISSED as moot.

18. This action is taken under delegated authority pursuant to Sections 0.191 and 0.392 of the Commission's rules, 47 CFR §§ 0.191 and 0.392.
